

Atascocita South C.I.A.
Trash Pickup Rules

On each Monday and Thursday, Texas Environmental Waste Services (“TEW”) will collect residential refuse located curbside. Residential refuse must be either in containers or bags. Tree, shrub and brush trimmings must be bundled in lengths no greater than four (4) feet long and weighing less than forty (40) pounds and branches with a maximum diameter of three (3) inches and placed at the curb. As part of normal collection, TEW does not pick up items including but not limited to dirt, rocks, bricks, concrete, tires, storage batteries or any materials or items deemed “hazardous materials” or waste generated by a private contractor (for example, carpeting). Bulky waste (refrigerators and freezers must be drained of Freon and have a bill to validate such service was performed) will be picked up either scheduled day and must also be located at the curb. For special collection of other than normal amounts of residential refuse, yard trimmings or bulk items, if notified, in advance, TEW will meet with the resident prior to collection day to negotiate a price. If a resident does not notify TEW of such a special pickup before their scheduled day, then TEW will leave a notice for the resident to contact them during normal office hours before the next scheduled pickup day.

On non-pickup days, trash containers must be removed from the curb area, and they must be stored in areas other than in front of the garage doors of each residence. Please do not set trash containers out curbside any earlier than 5:30 pm the day before trash pickup.
